

General:

- We are meeting as a "circle of trust", i.e. that we are all following safe practices in our lives.
- Generally, while in cars masks are required.
- If you've been exposed or sick, quarantine, stay home, and contact your doctor for care.
- If you find that you have recently been exposed to Covid-19, inform fellow paddlers.
- Guest paperwork and checks will be accepted, contact trip leader prior to trip.

Put-in & Take-out:

- While outside masks are not required

Shuttles:

Depending on your personal comfort level.

- **Standard Shuttle.** All persons wear masks. Windows down. This involves the closest physical and longest duration proximity. At driver's discretion, not using center seats, so a six-passenger vehicle only carries 4 people.

On the Water:

- While Paddling we naturally maintain 6+ feet separation due to boats and paddle length. If I can hit you with my paddle, you're too close.
- Rescues will be done anyway, barriers for mouth to mouth resuscitation can be used but appear ineffective.
